

The logo for adiatek features a thick orange horizontal bar above the word "adiatek". The word "adiate" is in white, and "k" is in orange. A registered trademark symbol (®) is located to the upper right of the "k". Below the word is the tagline "Design and innovation" in white.

adiatek[®]
Design and innovation

be the difference

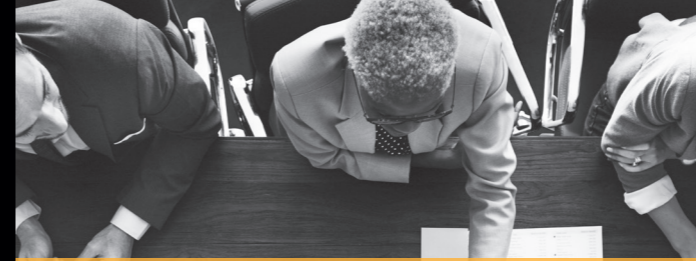

Our vision

Innovate the technology, mark the design.

Technology is the starting point, but the destination is the person who must use it. With our design floor cleaning machines, we help professionals to clean with more efficiency, **optimising time and consumption.**

We believe in change inspired by people, in innovation that makes *business* and conscience meet.

Our team works constantly to the innovation of the models

We provide advice to choose the right product for You

Together we study how to make more Your scrubbing machines

Our Customer Service will support you in the training of technicians and salesmen

When we were already
the difference

The birth of

adiatek[®]

2003

ruby is presented, the first model in the world with a draining hose integrated in the design

2004

The total rotation of the squeegee on the **baby 43** is patented

2013

The hydraulic brushes base lifting system for the **amber 83 36V** wins the Innovation Award at Fiera Pulire in Verona

2005

2013

For the first time one of our machines is equipped with the **Ozone System**

The **3S e 3SD** dosing sems are presented

3SD

2016

With the **QUARTZ 66/80** Adiatek changes the design. This model will be put in the Adi Design Index 2017, the productive Italian design excellence catalogue.

2018

TOPAZ 90 is born. The first floor cleaning machine in the World with the possibility to adjust the footboard height.

2019

ruby 48bh 3SD with the Ozono System is born. For the first time the sanitation and the detergent solution control are combined together.

2021

Adiatek presents its **autonomus drive** machine.

R-QUARTZ

2022

With **aries 70**, its first designed and produced sweeper, Adiatek enters the sweepers market.

Our

best innovation

The innovative systems are all
— **Adiatek** owned. Made and
designed by our teams

TELEMATICS

TELEMATICS is a live monitoring system for your machines fleet

3S and 3SD are detergent solution dosing systems that allow to have precise and steady consumptions. The **3SD** controls the water and the detergent separately

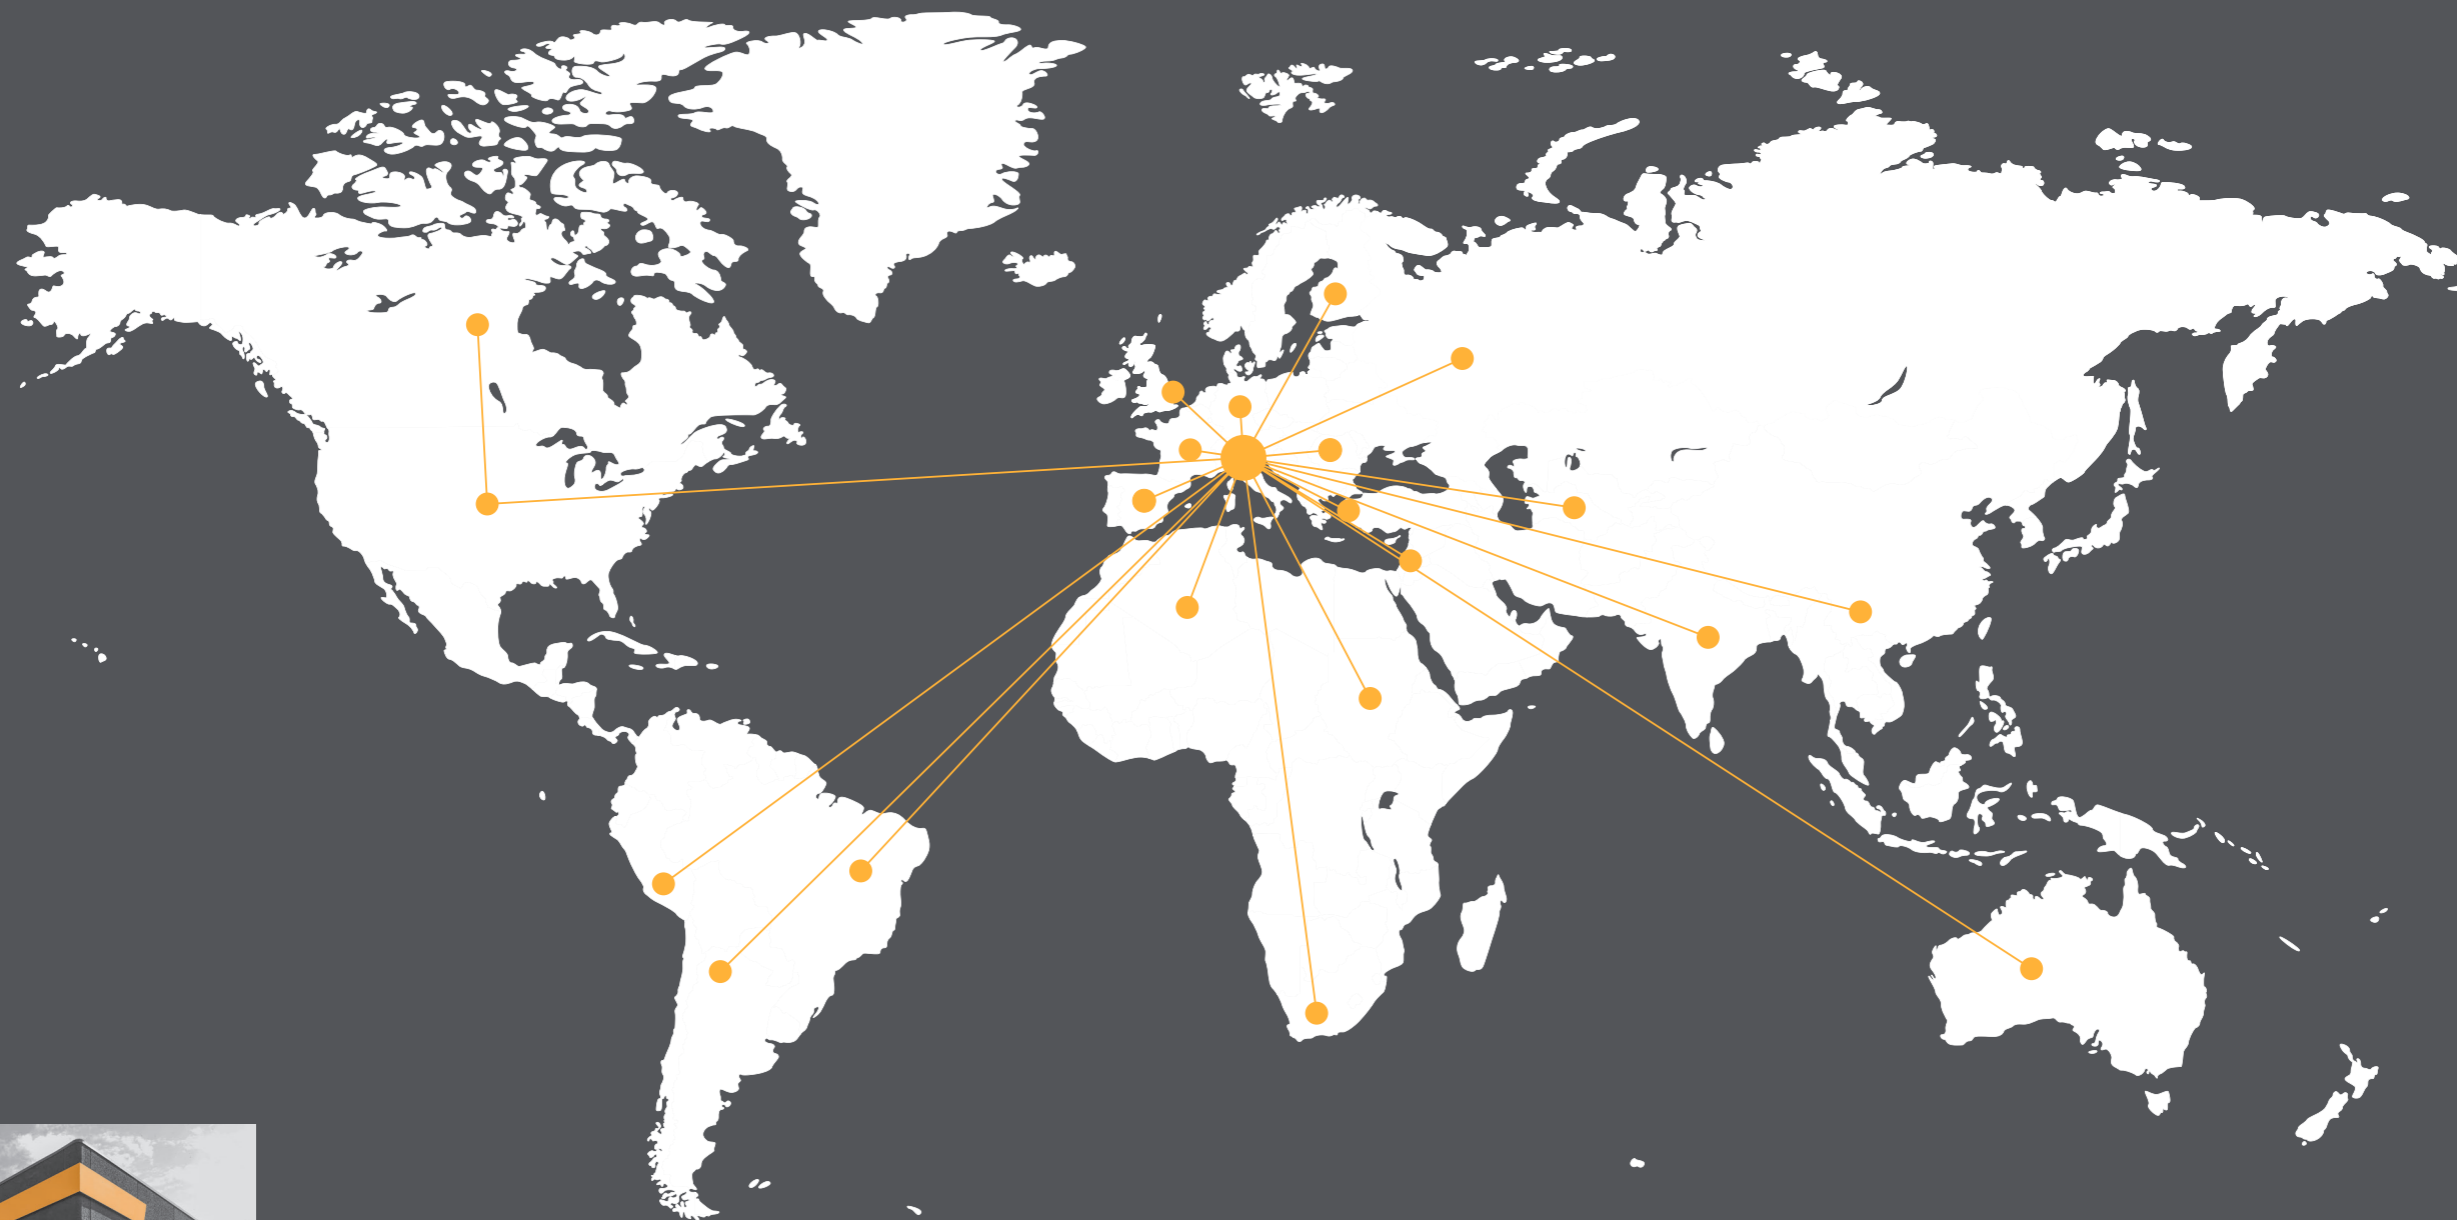

Sanitation without using chemical is possible thanks to the **Ozone System**
