With the TOPAZ 85S, FLOORPUL brings a new machine in the market, taking all the characteristics of ergonomics and autonomy of the scrubbing version.

This model is equipped with an 85cm brushes base and a side brush, which even allows collecting dirt on the floor near the wall.

The machine is provided with a 3S dosing system standard, the possibility to adjust the brushes base pressure on 8 levels depending on how much the brushes are worn and also the chance to choose between :

The standard and quiet mode for the suction motor.

The TOPAZ 85S can be equipped with different options:

- 3SD (water and detergent dosing system)
- TELEMATICS (telemetry system)
- Side brooms supports
